**RE: Updated WCIO Workers Compensation Data Specifications Manual**

In March 2005, the WCIO/EDI Committee met to review and discuss proposed changes to the WCIO Workers Compensation Data Specifications Manual and the Data Reporting Handbook. The updated pages reflect the revisions as approved by the committee.

The updated version of the WCIO Workers Compensation Data Specifications Manual is now available on the WCIO Web site at [www.wcio.org](http://www.wcio.org) under the "Products" section.

Since this is a "revision," all additions, changes, and deletions will be identified with markings in the margins and underlined in the text. The date at the top of the page where the revision took place reflects the date the change was made.

Contact the appropriate individual insurance organization/jurisdiction concerning any questions you have regarding the additions, deletions and/or changes, and any applicable effective date of this reprint. The contact person at MWCIA is Pam Flaten at 952.897.6417 or a message can be emailed to [pam.flaten@mwcia.org](mailto:pam.flaten@mwcia.org).
