## **Countrywide Mega Claims Webinar**

The recording of the Countrywide Mega Claim study webinar is now available under Carriers, Countrywide Mega Claims. See the [handout](#) for a concise overview of the Countrywide Mega Claim [paper](#).

The study analyzes trends in mega claims, defined as workers' compensation claims with incurred losses at 2018 cost levels of \$3 million, across the country. It assesses whether these claims have become more common over time and are being recognized as mega claims more quickly than in the past. The study also analyzes the characteristics of these claims in terms of size, claim type and industry segment and whether those characteristics have changed over time.
